

AquaRISE® ONE-PIECE BALL VALVES

NEW PRODUCT SHOWCASE

IPEX is pleased to announce the addition of the One-Piece Ball Valve to the AquaRise® potable water piping system. These valves are lightweight and compact, yet robust.

One-Piece Ball Valves, currently available in 1/2" through 1" sizes, are ideal for high pressure systems or for applications that do not require a serviceable connection.

Size Range

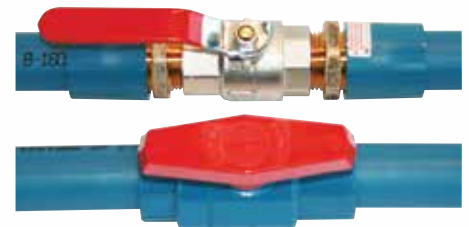

Size (inches)	Product Code
1/2	359070
3/4	359071
1	359072

Features & Benefits

- One-Piece valve body
- 400 psi @ 23°C (73°F)
150 psi @ 71°C (160°F)
- Compact, light-weight design
- Permanent, solvent weld joints
- Same hot and cold pressure rating as AquaRise pipe

AquaRise System

Using AquaRise valves eliminates the need for adapters. Fewer connections means saved time and money.

The Cost-effective, Time-saving Alternative to Metal Systems

AquaRise® is a CPVC potable water piping system for commercial and high building construction. It offers numerous benefits over metal with a system that's fully-approved for non-combustible applications.

- Fully certified
- Easy transitions
- Meets Flame & Smoke requirements
- Solid alternative to metal
- Permanent joining system
- Long-term performance
- Project savings
