

AQUARISE COPPER TUBE SIZE (CTS) ADAPTER

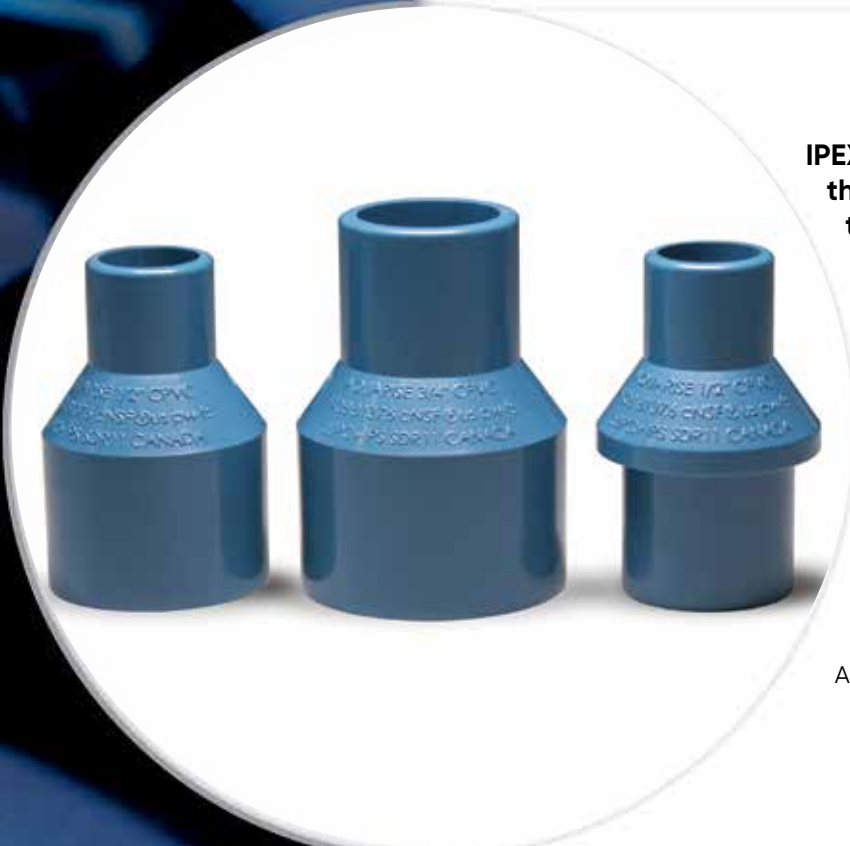

NEW PRODUCT SHOWCASE

Adapt to the Future

IPEX is pleased to announce the addition of the CPVC Copper Tube Size (CTS) Adapter to the AquaRise® potable water piping system.

For instances where a transition is required between AquaRise IPS dimensions and CPVC or PEX CTS dimensions in a hot and cold water piping system, AquaRise now offers an adapter for a quick and easy solution that will bridge the transition.

The addition of an AquaRise x CPVC CTS adapter provides a low-cost, non-threaded and permanent joint alternative to the existing threaded brass adapter when a transition is required between AquaRise and CPVC or PEX CTS piping systems.

AquaRise®

NSF^{pw-G}_{US} ASTM F438 CSA B137.6
 NSF^{fs}_{US} CAN/ULC S102.2

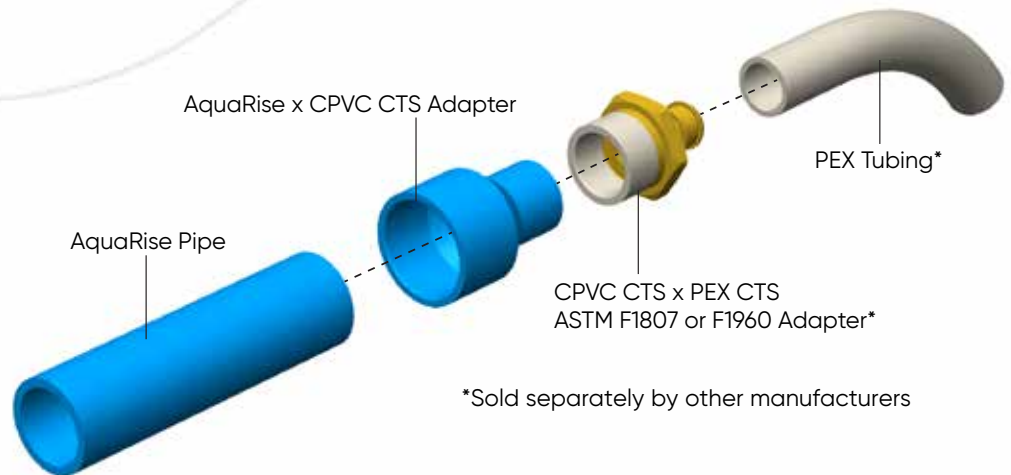

Certified by NSF to NSF 61, CSA B137.6, ASTM F438
